Bhavan's Campus, Munshi Nagar, Andheri (West), Mumbai-400058-India (Autonomous College Affiliated to University of Mumbai)

Electronics and Telecommunication Department BTech. Program

PROPOSED-Program Outcomes -Competencies - Performance Indicators

PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialisation for the solution of complex engineering problems.

	Competency		Indicators
1.1	Demonstrate competence in basic	1.1.1	Apply laws of basic science to an
	sciences.		engineering problem.
1.2	Demonstrate competence in engineering fundamentals.	1.2.1	Apply engineering fundamentals.
1.2		1 7 1	A 1 (1 1 · · · 1 C
1.3	Demonstrate competence in	1.3.1	Apply theory and principles of
	specialized engineering		Electronics and Telecommunication
	knowledge to the program.		engineering to solve an engineering
			problem.
1.4	Demonstrate competence in	1.4.1	Apply the knowledge of linear algebra,
	mathematical modelling		statistics and numerical techniques to
			solve problems.
		1.4.2	Apply the concepts of probability,
		1,7,2	ripply the concepts of probability,
			electronics, signals and electromagnetic
			waves in modelling of wired and
			wireless systems, and networks.

PO2: Problem analysis: Identify, formulate, research literature, and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

	Competency			I	ndicators		
2.1	Demonstrate an ability	to identify	2.1.1	Articulate	problem	statements	and
	and formulate	complex		identify obj	ectives.		
	engineering problem.						
			2.1.2	Identify en	gineering s	systems, varia	bles,
				and parame	ters to solv	e the problem	ıs.
			2.1.3	Identify the	e mathema	ntical, engine	ering
				and other	relevant	knowledge	that
				applies to a	given prob	lem.	

Bharatiya Vidya Bhavan's

Sardar Patel Institute of Technology
Bhavan's Campus, Munshi Nagar, Andheri (West), Mumbai-400058-India
(Autonomous College Affiliated to University of Mumbai)

2.2	Demonstrate an ability to	2.2.1	Reframe complex problems into
	formulate a solution plan and		interconnected sub problems.
	methodology for an engineering		_
	problem.		
	problem	2.2.2	Identify, integrate and evaluate
			information and resources.
		2.2.3	Identify existing processes/solution
			methods for solving the problem,
			including forming justified
			approximations and assumptions.
		2.2.4	Compare and contrast alternative
			solution processes to select the best
			process.
2.3	Demonstrate an ability to	2.3.1	Combine scientific principles and
	formulate and interpret a model.		engineering concepts to formulate
			model/s (mathematical or otherwise) of
			a system/ process that is appropriate in
			terms of applicability and required
			performance metrics.
		2.3.2	Identify assumptions (mathematical and
			physical) necessary to allow modelling
			of a system/process at the level of
			performance metrics required.
2.4	Demonstrate an ability to execute	2.4.1	Apply engineering mathematics and
	a solution process and analyze		computations to solve mathematical
	results.		models.
		2.4.2	Produce and validate results through
			skilful use of contemporary engineering
			tools / models/ process.
		2.4.3	Identify limitations and scope of the
			solution.
		2.4.4	Extract desired understanding and
			conclusions consistent with objectives

Bhavan's Campus, Munshi Nagar, Andheri (West), Mumbai-400058-India (Autonomous College Affiliated to University of Mumbai)

and limitations of the analysis. **PO3: Design/Development of Solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, and cultural, societal, and environmental

consid	considerations.				
	Competency		Indicators		
.1	Demonstrate an ability to define a	3.1.1	Recognize the need for analysis for		
	complex / open-ended problem in		precise problem definition.		
	engineering terms.	3.1.2	Elicit and document, engineering		
			requirements from various resources/		
			stakeholders.		
		3.1.3	Synthesize engineering requirements		
			from a review of the state-of-the-art.		
		3.1.4	Extract engineering requirements from		
			relevant engineering professional		
			standards/bodies.		
		3.1.5	Explore and synthesize engineering		
			requirements considering health, safety		
			risks, and environmental, cultural and		
			societal issues.		
		3.1.6	Determine design objectives, functional		
			requirements and arrive at		
			specifications.		
3.2	Demonstrate an ability to generate	3.2.1	Apply formal idea generation tools to		
	a diverse set of alternative design		develop multiple engineering design		
	solutions.		solutions.		
		3.2.2	Build models/prototypes to develop		
		2.2.2	diverse set of design solutions.		
		3.2.3	Identify suitable criteria for evaluation		
0.0		2.2.1	of alternate design solutions.		
3.3	Demonstrate an ability to select	3.3.1	Apply formal decision making tools to		
	optimal design scheme for further		select optimal engineering design		
	development.		solutions for further development.		

Bhavan's Campus, Munshi Nagar, Andheri (West), Mumbai-400058-India (Autonomous College Affiliated to University of Mumbai)

		3.3.2	Consult with domain experts and
			stakeholders to select candidate
			engineering design solution for further
			development.
3.4	Demonstrate an ability to advance	3.4.1	Refine a conceptual design into a
	an engineering design to defined		detailed design within the existing
	end state.		constraints (of the resources).
		3.4.2	Generate information through
			appropriate tests and modifications to
			improve or revise design.

PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

	Competency		Indicators
4.1	Demonstrate an ability to conduct	4.1.1	Define a problem, its scope and
	investigations of technical issues		importance for purpose of investigation.
	consistent with their level of	4.1.2	Examine the relevant methods, tools and
	knowledge and understanding.		techniques of experiment design, data
			acquisition, analysis and presentation.
		4.1.3	Apply appropriate instrumentation
			and/or software tools to make
			measurements of physical quantities.
		4.1.4	Establish a relationship between
			measured data and underlying physical
			principles.
4.2	Demonstrate an ability to design	4.2.1	Design and develop experimental
	experiments to solve open ended		approach, specify appropriate equipment
	problems.		and procedures.
		4.2.2	Understand the importance of proposed
			design of experiments and choose an
			appropriate experimental design plan
			based on the study objectives.
4.3	Demonstrate an ability to analyze	4.3.1	Use appropriate procedures, tools and
	data and reach a valid conclusion.		techniques to conduct experiments and

Bhavan's Campus, Munshi Nagar, Andheri (West), Mumbai-400058-India (Autonomous College Affiliated to University of Mumbai)

	collect data.
4.3.2	Analyze data for trends and correlations,
	stating possible errors and limitations.
4.3.3	Represent data (in tabular and/or
	graphical forms) so as to facilitate
	analysis and explanation of the data, and
	drawing of conclusions.
4.3.4	Synthesize information and knowledge
	about the problem from the raw data to
	reach appropriate conclusions.

PO5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modelling to complex engineering activities with an understanding of the limitations.

	Competency		Indicators
5.1	Demonstrate an ability to	5.1.1	Identify modern engineering tools
	identify / create modern		techniques and resources for engineering
	engineering tools, techniques and		activities.
	resources.	5.1.2	Create/adapt/modify/extend tools and
			techniques to solve engineering
			problems.
5.2	Demonstrate an ability to select	5.2.1	Identify the strengths and limitations of
	and apply discipline specific tools,		tools for (i) acquiring information, (ii)
	techniques and resources.		modelling and simulating, (iii)
			monitoring system performance, and (iv)
			creating engineering designs.
		5.2.2	Demonstrate proficiency in using
			discipline specific tools.
5.3	Demonstrate an ability to evaluate	5.3.1	Discuss limitations and validate tools,
	the suitability and limitations of		techniques and resources.
	tools used to solve an engineering	5.3.2	Verify the credibility of results from tool
	problem.		use with reference to the performance
			metrics and limitations.
DOG			• 6 11 1 11 11

PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities

Bhavan's Campus, Munshi Nagar, Andheri (West), Mumbai-400058-India (Autonomous College Affiliated to University of Mumbai)

releva	relevant to the professional engineering practice			
	Competency		Indicators	
6.1	Demonstrate an awareness of	6.1.1	Demonstrate an attitude of responsible	
	knowledge of societal, health,		citizen by actively participating in	
	safety, legal and cultural issues.		activities related to awareness of	
			societal, health, safety, security, legal	
			and cultural issues.	
6.2	Demonstrate an ability to describe	6.2.1	Identify and describe various	
	engineering roles in a broader		engineering roles; particularly as	
	context, e.g. pertaining to the		pertains to protection of the public and	
	environment, health, safety, legal		public interest at global, regional and	
	and public welfare.		local level.	
6.3	Demonstrate an understanding of	6.3.1	Interpret legislation, regulations, codes,	
	professional engineering		and standards relevant to professional	
	regulations, legislation and		engineering practice and explain its	
	standards		contribution to the protection of the	
			public.	

PO7: Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

	Competency		Indicators
7.1	Demonstrate the belongingness to	7.1.1	Demonstrate sensitivity towards
	mother earth.		environmental issues.
		7.1.2	Demonstrate an attitude of responsible
			citizen by actively participating in
			community service related to
			environmental issues.
7.2	Demonstrate an understanding of	7.2.1	Identify risks/impacts in the life-cycle of
	the impact of engineering and		an engineering product or activity.
	industrial practices on social,	7.2.2	Understand the relationship between the
	environmental and in economic		technical, socio-economic and
	contexts.		environmental dimensions of
			sustainability.
7.3	Demonstrate an ability to apply	7.3.1	Describe management techniques for

Bharatiya Vidya Bhavan's

	(Autonomous College Ai	illiated to	oniversity of ividilibary
	principles of sustainable design		sustainable development.
	and development.	7.3.2	Apply principles of preventive
			engineering and sustainable
			development to an engineering activity
			or product relevant to the discipline.
PO8:	Ethics: Apply ethical principles and	l commit	to professional ethics and responsibilities
and n	orms of the engineering practice.		
	Competency		Indicators
8.1	Demonstrate an ability to	8.1.1	Identify situations of unethical
	recognize ethical dilemmas.		professional conduct and propose ethical
			alternatives.
8.2	Demonstrate an ability to apply	8.2.1	Identify professional code of ethics.
	the Code of Ethics.		
		8.2.2	Examine and apply moral & ethical
			principles to known case studies.
PO9:	Individual and team work: Function	on effecti	vely as an individual, and as a member or
leader	in diverse teams, and in multidiscipl	inary setti	ings.
	Competency		Indicators
9.1	Competency Demonstrate an ability to form a	9.1.1	Indicators Recognize a variety of working and

Demonstrate success in a team based project.	9.1.2 9.2.1 9.2.2 9.2.3 9.2.4 9.3.1	Recognize a variety of working and learning preferences; appreciate the value of diversity on a team. Implement the norms of practice (e.g. rules, roles, agendas, etc.) of effective team work, to accomplish a goal. Demonstrate effective communication, problem solving, and conflict resolution and leadership skills. Treat other team members respectfully. Listen to other members. Maintain composure in difficult situations. Present results as a team, with smooth

Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology Rhama's Gamma Marshi Nagar Andhari (Wash) Marshai 40

Bhavan's Campus, Munshi Nagar, Andheri (West), Mumbai-400058-India (Autonomous College Affiliated to University of Mumbai)

engineering community and with the society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

	Competency		Indicators
10.1	Demonstrate an ability to	10.1.1	Read, understand and interpret technical
	comprehend technical literature		and non-technical information.
	and document project work.	10.1.2	Produce clear, well-constructed, and
	and the control of th		well supported written engineering
			documents.
		10.1.3	Create flow in a document or
			presentation - a logical progression of
			ideas so that the main point is clear.
		10.1.4	Comprehend literature, carry out
			background
			search & prior art and prepare a patent
			draft.
10.2	Demonstrate competence in	10.2.1	Listen to and comprehend information,
	listening, speaking, and		instructions, and viewpoints of others.
	presentation.	10.2.2	Deliver effective oral presentations to
			technical and nontechnical audiences.
10.3	Demonstrate the ability to	10.3.1	Create engineering-standard figures,
	integrate different modes of		reports and drawings to complement
	communication.		writing and presentations.
		10.3.2	Use a variety of media effectively to
			convey a message in a document or a
			presentation.

PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

	Competency	Indicators		
11.1	Demonstrate an ability to evaluate	11.1.1	Describe various economic and financial	
	the economic and financial		costs/benefits of an engineering activity.	
	performance of an engineering	11.1.2	Analyze different forms of financial	
	activity.		statements to evaluate the financial	

Bhavan's Campus, Munshi Nagar, Andheri (West), Mumbai-400058-India (Autonomous College Affiliated to University of Mumbai)

			status of an engineering project.
11.2	Demonstrate an ability to compare	11.2.1	Analyze and select the most appropriate
	and contrast the costs/benefits of alternate proposals for an		proposal based on economic and financial considerations.
	engineering activity		
11.3	Demonstrate an ability to	11.3.1	Identify the tasks required to complete
	plan/manage an engineering		an engineering activity, and the
	activity within time and budget		resources required to complete the tasks.
	constraints.	11.3.2	Use project management tools to
	Constants		schedule an engineering project so it is
			completed on time and in budget.
11.4	Demonstrate an ability to do	11.4.1	Ability to prepare financial plan,
	financial planning by considering		calculate relevant taxes and propose
	aspects of taxation and		suitable investment by considering real
	investment.		life constraints.

PO12: Life-long learning: Recognise the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Competency		Indicators		
12.1	Demonstrate an ability to identify	12.1.1	Describe the rationale for requirement	
	gaps in knowledge and a strategy		for continuing professional development.	
	to close these gaps.	12.1.2	Identify deficiencies or gaps in	
			knowledge and demonstrate an ability to	
			source information to close this gap.	
12.2	Demonstrate an ability to identify	12.2.1	Identify historic points of technological	
	changing trends in engineering		advance in engineering that required	
	knowledge and practice.		practitioners to seek education in order to	
			stay connected with the new	
			developments in our field.	
		12.2.2	Recognize the need and be able to clearly	
			explain why it is vitally important to stay	
			connected with new developments in our	
			field.	
12.3	Demonstrate an ability to identify	12.3.1	Source and comprehend technical	
	and access sources for new		literature and other credible sources of	

Bhavan's Campus, Munshi Nagar, Andheri (West), Mumbai-400058-India (Autonomous College Affiliated to University of Mumbai)

	information.		information.
		12.3.2	Analyze sourced technical and popular
			information for feasibility, viability, sustainability, etc.
12.4	Demonstrate an attitude to pursue	12.4.1	Recognize the need and able to
	life skills.		demonstrate life skills that are vitally
			important for overall development.
		12.4.2	Demonstrate an ability to respond in an
			emergency situation by applying life
			saving skills.
12.5	Demonstrate entrepreneur	12.5.1	Recognize the importance of
	mindset.		entrepreneurship and participate in
			activities related to business
			formation.

Program Specific Outcomes -Competencies – Performance Indicators

PSO1: The ability to troubleshoot hardware and software faults/ bugs in Communication systems.

syster	systems.					
Competency				Indicators		
13.1	Ability to	identify	faults/	13.1.1	Select and use the suitable tools and	
	debugging	errors	in		methodology for identification of faults/	
	Communicatio	n systems.			debugging errors in Communication	
					systems.	
				13.1.2	Able to locate and classify the faults/	
					debugging errors in Communication	
					systems.	
				13.1.3	Follow safety precautions and standard	
					procedures used in testing.	
13.2	Ability to recti	fy faults/ del	ougging	13.2.1	Select and use the suitable tools and
